ABOUT THE CONFERENCE:
Crises refers to sudden unplanned events which cause major disturbances in the country and trigger a feeling of fear and threat amongst the citizens. The Indian economy started its journey in 1951 when the First Five Year Plan was launched. The first phase of development could be characterized as the 'decade of crisis' when the country faced the problem of Partition and the consequent food crisis and foreign exchange crisis, Indian economy landed in a new crisis in post liberalization period leading to economic fallouts followed by the experience of huge fiscal deficit. However, crisis and changes in economic policies in the peculiar features of India at almost all the times.

NEED:
India in facing the story of an economy in distress, its banking system to panic and consumers too worried about job cuts and rising costs to spend. In simpler words crisis leads to uncertainty and causes major harm to the country and its citizens. The crises in India may be classified in to pre and post-independence period. It includes economic, social, environmental, community or any other type of crises arising due to political or social or regional imbalances. These crises may have multiple reasons but the efforts of every citizen have been providing remedies to overcome followed by the distress and relief to the country as a whole. However, we Indians took initiatives and found out where things went wrong, identify the problem areas and devise appropriate strategies to overcome the same. This Conference will bring together policymakers, leaders and academicians from domestic and

international sectors, to evaluate its role in how the crises had damaged the country and collective efforts initiated had given a new dimension to trade clearance and industry in this global era. The event will allow the spotlight in the series of crises in India in pre and post independence period, its impacts and the suffering humanity offered to overcome such national problems.
